INDEX

TO VOLUME THE THIRD.

A

PAGE.

Abdomen, dropsy of, its nature and character 1
Ague, efficacy of the sulphate of Quinine in cases of 269
Amputations, general description of 41
———, directions for performing 42
———, instruments to be used in 43
——— of the finger at the second or third joint 44
——— at the first joint . . *ib.*
——— of the metacarpal bone of the thumb 45
——— of the foot at the tarsus 45
——— of the flap of the leg 46
——— of the leg, below the knee 47
——— of the thigh . . . 49
——— of the hand at the wrist joint 65
——— of the fore arm . . 66
——— at the shoulder joint 67
——— at the hip-joint . . 69
Anecdote of a French physician . . 256
Animal substances, curious experiments on their transplantation by Dr. Duffenback, of Berlin . . 280
Anus, imperforate, case of, operation for 124
Arsenic, its nature and effects . . 175
Ascites, causes of 2
———, treatment of 4
Asthma, cured by galvanism, cases of 122
Aura epileptica, description of . . 113
Axillary artery, rupture of, successfully treated 90

B

PAGE

Basset's, Mr. operation for loss of speech described 31
Belladonna, injection of, into the veins 216
Bethlem hospital, report of . . . 122
Bladder, irritable, produced by gonorrhœal affections; its nature and symptoms 289
———, treatment of . 290
———, appearances of, on dissection 290
———, mucous disease of, its nature, &c. 291
———, treatment of . . 292
———paralysis, its symptoms 292
———, treatment of . . 292
Blizard, Sir William's horror of hats 17
Blood vessels, lecture on the state of, in fevers; delivered at Philadelphia 342
Bones, syphilitic diseases of, from venereal poisons, their nature and character 392
Bowels constipated, utility of charcoal in cases of 126
Bubo, sympathetic, its character, &c. 297
———, treatment of . 298
———, syphilitic, its symptoms, &c. 353
———, treatment of . . 358
———, consequences of the improper use of mercury, in cases of 357
———, sloughing, its nature and effects 358
———, treatment of . . 359

C

PAGE.
Cancer labii, description of . . 109
———, operation for . . 110
Castor oil, artificial, method of making 406
Castration, nature of 33
———, operation for . . . 40
Chancres, their nature and symptoms 321
———, the period of their appearance 321
———, different kinds of, considered 322
———, treatment of . . . 325
———, producing phymosis, its nature and character . . . 329
———, treatment of . . . 330
———, producing paraphymosis, its nature and effect 331
———, treatment of . . . 331
———, irritable and sloughing, its character, &c. 332
———, treatment of . . . 333
———, in women, their symptoms and effects 335
———, treatment of . . . 336
Chapman, Mr. Treasurer of St. Thomas's hospital, letter to . . 330
Chest, accumulation of fluid in, nature of 13
———, operation for . . . 13
Chemistry, papers on . . 21—54—86—118—153—132—206—271—304—339—375—399.
Chevalier, Mr. death of, and character as a surgeon 338
Chordee, nature and character of . 293
———, treatment of . . . 293
———, chronic symptoms of . 293
Clinical Lectures at St. Thomas's, by Mr. Tyrrell . . . 379—410
College of Surgeons in London, arbitrary conduct of . . 116—129—202—242—265.
———, Charter of . 132
———, in Ireland, sketches of . . . . . 60—219
Constipation of the bowels, utility of charcoal in cases of, demonstrated 124
Congenital irritability of Sir Wm. Blizard, case of cure by the judicious application of the LANCET 160
Copeland, Dr. and the LANCET . 19
Corrosive sublimate, antidote against 216

D

Dislocation of the sixth cervical vertebra of the neck, treatment of 145
———, post mortem examination of 145
———, of the tenth dorsal vertebra, operation for 147
Dropsy, ascites or peritoneal, nature and character of . . . 1
———, ovarian or encysted . . 5
———, treatment of 6
———, operation for . . . 10
———, observations on the obliteration of the veins, regarded as a cause of 401

E

Earle's, Mr. fracture bed, full description and engraving of . . 273
Encysted dropsy, its nature and influence 5
———, tumour, extirpated at Venice, account of the operation and cure of, with an illustrative engraving 24
Enlarged tonsil glands, nature of 103
———, constitutional treatment of 104
———, local treatment of 105
———, Epididymis, its nature and consequences 295
———, treatment of . . . 295

F

Fluid, accumulation of in the chest, nature of 13
———, operation for 13
Fistula in ano, nature of . . . 14
———, operation for . . 15
———, treatment of . . . 16
Foreign Department.—Reports of Physiological and Pathological cases, treated by Continental practitioners . . . 24—90—122—138—208—216—254—277—308—348—377—401.

G

Galbanum, tincture of, its efficacy in diseases of the eye . . . 218
Gleets, their character and effects 299
———, treatment of 300
——— in females, described . . 304
Gonorrhœa, virulent, its nature, causes, and symptoms . . . 193
———, its influence upon the system 194
———, treatment of . . . 196
———, value of cubebs in cases of 200

PAGE.

Gonorrhœa in females, its symptoms 302
———, mistakes made by practitioners relative to its true character 303
———, treatment of . . . 303
Gonorrhœal rheumatism and ophthalmia, their nature & influence 301
Guy's hospital, reports of . 79—117—154—247—285—313—407.
Gurney's, Mr. Thermometer for measuring delicate temperature, description and engraving of . 54

H

Hare-lip, description of . . . 105
———, operation for . . . 106
Hole and Corner Surgery at St. Thomas's, strictures on . 369—394
Hornet, bite of, its nature and effects 165
———, treatment of . 165
Hydrophobia, its symptoms . . 167
———, treatment of . . 168
———, post mortem examination of those who died from . 168
———, method adopted by the modern Greeks in the cure of 308
———, recent case of, at Stockport 383

I—J—K

Johnson, Dr. James, claims as a medical reviewer examined and demonstrated . . . 50—88—89
Imperforate anus, case of, operation for 124

L

Labii, cancer of, its cause and symptoms 109
———, operation for 110
Lead, its influence as a poison . 178
Lectures, Surgical, at St. Thomas's 1—9, 33, 41, 65, 71, 97, 161, 169, 193, 225, 233, 257, 289, 297, 321, 331, 353, 385.
Leprosy in India, description of . 152
Lizar's anatomical prints, notice of 58
London hospital, happy cure of Sir Wm. Blizard 160
Luxation at the shoulder joint, successfully reduced by an American Surgeon 90

M

Medico-Chirurgical Society and the LANCET, account of . . . 19

PAGE.

Medical promotions, deaths, &c. 320—351—383—416.
——— Life Assurance Company, meeting of 374
Mercury, oxymuriate of, its nature and influence as a poison . . 177
———, consequences of the improper use of, in venereal affections 357
Middlesex hospital, reports of . 26—58—85—120—158—187—213—251—288—316—348—412.
———, annual dinner of . 243
Miscellanies 415
Morphine, acetate of, chemical test of its presence, by M. Dublanc, of Paris 208

N

"Ninnyhammers" of St. Thomas's, the farce of, d—d 315

O

Oleum teribinthinæ, cases illustrating the efficacy of, in puerperal fever 310
Opium, its power and influence in destroying life 171
——— remedies, to be administered as antidotes 172
———, utility of sulphate of copper in cases of 173
———, experiments upon and analysis of, by French practitioners 305

P

Palate cleft, operation for, successfully performed by Mr. Alcock 365
Paraphymosis produced by chancre, nature and effect of 331
———, treatment of 331
Peritoneal dropsy, its nature and character 1
Periosteum syphilitic diseases of, their nature and consequences . . . 390
——— treatment of 391
Phymosis produced by chancre, its nature and consequence 229
———, treatment of 230
Phrenological Society, meeting of 337
Piles, general description of 71
———, internal treatment of 74
———, operation for, excision of described 76
Poisons, general description of their nature and character 161
——— of the Animal kind, the wasp and the hornet 165

PAGE.
Poison of the viper 165
———, treatment of..... 165
———, Hydrophobia, nature of 166
———, treatment of 168
——— of the Vegetable and Mineral kind, their nature and effects 169
———, Opium, its power and influence 171
———, post mortem examination of persons who have taken it 171
———, treatment by antidotes 174
———, testimony to the utility of the newly invented instrument for extracting liquid poisons from the stomach..... 174
———, ill effects of Iodine ... 175
———, Mineral, their nature, &c. 175
———, Arsenic, its effect upon the system 175
———, its value as an external medicine, if used with care 176
———, oxymuriate of mercury, its nature and properties... 177
———, remedies as antidotes 177
———, Lead, its nature and effects upon the system 175
———, Ticunas, its powerful nature 175
———, experiments shewing its influence upon animals 178
———, Woorrara, its nature and properties..... 217
Polypi, general description of 78
——— of the rectum, nature of, &c. 78
——— of the nose, various kinds of 97
———, gelatinous, nature and influence of..... 97
———, operation for 98
———, treatment of 100
———, hydatid, nature of, &c..... 101
———, treatment of ..... ib.
———, Carcinomatous nasal, character and symptoms of..... ib.
———, treatment of 102
———, Fungoid nasal, character of ib.
———, treatment of ..... ib.
———, post mortem examination of 103
———, disease resembling, in children 102
———, treatment of 103
Prostrate gland, acute inflammation of, its nature and character 257
———, medical treatment of ib.
———, chronic enlargement of, its character and symptoms .. 258
———, operation for..... 259
———, post mortem appearances of ..... ib.

PAGE.
Prostrate gland, treatment of..... 261
———, fungous polypi growing from its base, its character and influence 264
———, operation for..... ib.
Prussic Acid, spontaneous developement of, in alvine evacuations 377
Puerperal fever, efficacy of Oleum Terebinthinæ, in cases of 310

Q

Quinine, sulphate of, dissertation on its properties by Dr. Van Maanen of Leyden 404

R

Rachites, case of, in a dwarf..... 27
Read's injecting syringe, letter on 21
Review of M. Ollivier's Treatise on the Spinal Marrow, and its diseases, with illustrative cases .. 138
Royal Academy of Paris, notices and translations of its transactions in physiology, pathology, anatomy, &c. 20, 286, 377
———, subjects for the prizes of 373

S

Scale of the comparative number of patients admitted into the hospitals of Paris during ten years .. 341
Sketches of the surgical profession in Ireland 60, 219
Small-pox Hospital, annual report of 342
Soda, chlorate of, its utility in cases of tinea capitis..... 218
Speech, loss of, successfully treated by Mr. Basset..... 31
Spinal Marrow, treatise on its diseases by Dr. Ollivier of Paris.. 138
Spinal marrow, concussion of 148
St. Bartholomew's Hospital, report of, .. 60, 119, 121, 157, 190, 213, 249
———, dinner of the Students of 179
St. Thomas's Hospital, reports of, 82, 118, 121, 156, 184, 210, 249, 286, 314, 347, 380
St. George's Hospital, reports of, 191, 253, 288, 319, 349, 382
Stomach, spontaneous perforation of, 218
Stones in the bladder, new method of destroying without the operation of lithotomy..... 254
———, new method of operating for, by a French practitioner 378

Suicide, remarks on, by Professor Grohman of Hamburgh 95
Syphilis on the nose, its nature, &c. 386
———, treatment of .. 387
Syphilitic eruptions, their character 388
———, treatment of .. 389
——— diseases of the periosteum and bones, their nature and influence 391
———, treatment of 392
———, danger of the too free use of mercury in cases of..... 393
——— diseases, post mortem appearances of the skull in cases of 393

T

Testicle, castration of..... 33
———, schirrus of the, nature, &c. 35
———, operation for .... ib.
———, Fungoid disease of described..... 36
——— operation for 37
———, chronic swelling of, its nature, ... 38
———, cured without operation 39
———, inflammation of, description of 294
———, treatment of 295
———, funguses of, their nature, &c. 296
Testis, wasting of the, its symptoms, &c. 297
———, treatment of ..... ib.
Throat, diseases of, produced by venereal poison, their characteristics, &c..... 361
———, treatment of 363
———, exfoliation of, its remedies ib.
———, instrument to obviate the unpleasant consequences of described ..... ib.
Tic Doloureux, description of 110
———, operation for 111
———, treatment of..... 112
Tongue, paralysis of, successfully treated by Mr. Basset 31
Tonsil glands, enlargement of described..... 103
———, constitutional treatment of 104
———, local treatment of ..... ib.
Tobacco, dangerous consequences of, in enemas and injections 169
———, improper use of in a case of tinea capitis..... 170
Traumatic tetanus, treatment of by French practitioners 277

U

Urethra, strictures of, their various kinds, nature and effects..... 225
———, permanent, the causes of, 228
———, treatment of..... 229
———, abscesses in the lacunæ, their cause and symptoms 233
———, treatment of..... 234
———, extravasation of urine from its bursting, its nature and effects 236
———, operation for 237
———, spasmodic and inflammatory,—the character and symptoms ..... ib.
———, treatment of the inflammatory 238
———, of the spasmodic 239
———, general observations on.. ib.
———, irritable state of, considered ..... ib.
———, bleeding from, its cause, 294
———, treatment of..... ib.

V

Veins, obliteration of, regarded as a cause of dropsy, observations on, ... 401
Venereal poisons, general description of 193
——— virulent gonorrhœa, its cause and symptoms ..... ib.
——— its influence upon the system 194
——— treatment of 196
——— value of cubebs as a remedy 200
Viper, bite of, its effects..... 165
———, treatment of 166
Viola odorata, experiments on, and analysis of 271

W

Warts in the vagina, cause and effect of 336
———, treatment of 337
Wasps, bite of, their nature &c. .. 165
———, treatment of 165
Weiss, Mr. instrument for defective palates, description and engraving of 363
Westminster hospital, reports of.. 159—191—215—253—286—318—247—383.
——— Infirmary, annual report of 383
